

PEDESTAL, THINK, NEW

⌈ pedestal is a useful, fruitful id + id element.

I use it for indicating honoring & prioritizing.

⌈ capitalism ⌈ Latin caput, head

⌈ money on a pedestal ~~ism~~ (⌈ believe)

⌈ filial piety ⌈ parents

⌈ mister ⌈ idol ⌈^x revere (⌈ a deep bow)

⌈ honoring "less". This transcends ordinary English & would be worthy of a tattoo. For a minimalist perhaps, or someone wanting to lose weight.

⌈ think. I long used just ⌈ but didn't like it - too static - so added the cartoonish action lines (r) & now am more satisfied with the id.

⌈ new. more complex but more expressive than just ⌈. (⌈ is beginning/end indicator) ⌈, a shaded area, indicates the dark, old, past. ⌈ stands out in the light. ⌈ old (in sense of left behind, defunct) is the graphic opposite.
