

 sleep, asleep — in this case is a line, a border line separating states of consciousness
 dream  is a closed eye w/ lashes

 awake I like these because the seeing-eye is like a risen sun. I also use —, but shorter, for the surface of the earth  day  *night. I also use it a distance like

H[↑] get up  bed H[↑] get up H chair  near —

 the opposite

 realize  real X thing, Latin res "real" could be .Xⁿ

 notice ( note)

++ alert ++ conscious

X[→] reduce X[→] .duc lead

 comprehend  whole, which "com" conveys .prehen grasp

  concept ( idea  thought) concept — taken together

Ids are visual, graphic concepts. ~~†††~~, ~~†††~~ s.

.-G usurp  use -G grasp [^{Latin} usurpare] grab for one's own use

.-G

 belong I correct  own  self

  place (V here V this) I correct
