healthy

Every day I experience ids as the joy of creatively improving ideas.

an sun

This morning I made for health in the positive sense ( ), an improvement over .

This invokes the metaphor of good health being like the shining sun, of having the sun within you + being sunny.

I consider this a very positive creative improvement of my concept of health.

Ids are graphic concepts.

Notes:

experience happen person chance (hap) → go by

as degree very = equal. I imagin the = sliding up + down | (as in sense of tracking motion)

sense (brain on a stick |)

invoke , Latin dot in say call (voke)

metaphor a likening (like) of the complex to the simple

consider think star (sider)

concept (idea) ideas elements taken together (cept)

is graphic greek dot write (graph)
