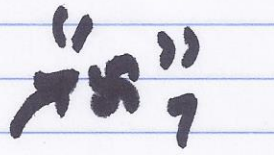
excite



exciting

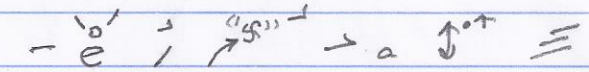
.ex out (of) (□▽) (in to)

.= Latin

.cit move (a pinwheel)

(( )) motion lines think

transcend beyond



The electron was excited to a higher level.

It thrills me to make good progress capturing an idea accurately with an id.

I get a lot of pleasure from doing this.

Note: electron particle little

 progress this is an etymid I like .pro forward

 gress step

capture could be a net, could be a cap!

 get in sense of attain get in sense of change △

pleas(ed) ~~ple~~ please (someone) ~~ple~~ please (me) feeling

love (feel?)

(feel — ~ is a shortening of)
