

Some of my effective ids explained

↑ decent ♀ good ⚫ bad ♀ g/b indicator

— a limen line or floor

↑ above (↑)

Decent = above a certain floor or limit line
for quality or goodness. ♀ indecent

≤ explain < say — a plain?

To say such that it is out in the open, simple, for all to see. This is a kind of short cut id.

⊂ include ⊂ in ⊂ closed [clad]

⊂[∇] exclude ⊂[∇] out [exp]

⊂ conclude ⊂ begin/end indic. ⊂ end

⊂ ready ⊂ order (or order at the beginning) also ⊂

⊂ moment of particle ⊂ time

⊂ fact ⊂ true the ⊂ for true is an invented ⊂ (time)

the dot being on the left shows it as in the past

(established) I like just a dot for a particle

or discrete instance of something ⊂ time ⊂ times

⊂ ⊂

⊂ safe ⊂ safety ⊂ a cliff, indicating danger ⊂

⊂ a safe ⊂ noun cap

⊂ catch ⊂ I guess this doesn't need explanation!

⊂ guess ⊂ think ⊂ most ⊂ choose [Choosing on basis of what you think is most likely]

⊂ guess ⊂ unknown (just guessing!)
