

□ mind (M) face (eyes + nose)  
□ a screen in the forehead area

this shows, alludes to, illustrates, 2 main aspects of intelligence: resourcefulness of understanding — there is a lot there to react — a lot of facts, images, elements of understanding & security of possibility projection. of course this must include facility at sorting out the possibilities, Clarity of Mind being the ability to discern & choose the + from the F, the good from the bad, the real from the fake or merely apparent.
