

# ALIENS: WE ARE INTERESTED IN THE CONCEPT OF RESCUE

Well, the aliens should come to me if they need help with this concept. I will draw a picture for them.

alien [Latin *alius*, other]  $\nabla$  this  $\nabla$  beyond  $\nabla$  here

I often use  $\nabla$  to indicate place

a poetic etymid, it gives a sense of "beyond".

my new id for "interest"  $\Delta$  think  $\textcircled{e}$  involve ( $\textcircled{e}$  evolve)

this is more directly expressive than  $\square$ -raising + sustaining level of thought. It is less of an analyd.

concept - (idea  $\times$  thought)  $-ex$  put That which is put together or taken together in the mind. Ids are graphic concepts.

rescue  $\nabla$  cliff (metaphor for danger)  $\nabla$  danger

$\nabla$  anti-cliff metaphor for safety  $\square$  (a) safe

hand shows agency • dark spot of danger shows what is being rescued from
