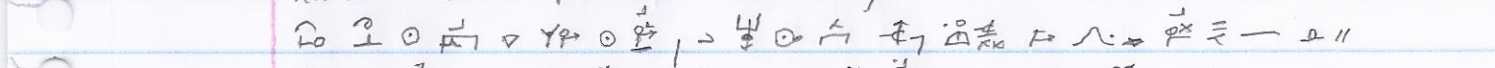
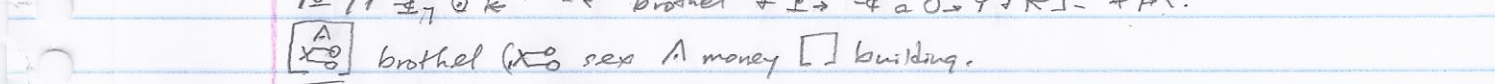
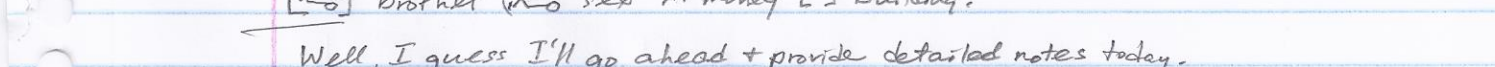
2/25 Brothel

Although when I started this project I resolved not to waste my life making ideograms for rarely used, unimportant words— there are just too many of them— I've done it anyway, and have been surprised at how easy + fun it often is.



Yesterday while transcribing I came across the word "brothel" and immediately made a perfectly good + serviceable id for it.





brothel (sex ∧ money [] building.

Well, I guess I'll go ahead + provide detailed notes today.
