

SCIENCE

stands for

→ 3, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100

① → F observe

②, search, + ⊕ ⊙ · ȳ, □ ⊙ but also magnifying glass

↙ ↗ telescope

—, — ⊕ — know — is from ⊕ know

⊕ ⊕ ⊕ — V + — V Knowledge from observing the small and large.

③ L₃ ȳ ∴ ȳ F science, ④ i ȳ — Δ ȳ + ȳ F ȳ —

I have made many ids for "science", sometimes showing the systematicity + necessity for repetition —

↳ ∴ ⊕ ⊕ always of course observation.

④ | ȳ ⊕ — ȳ ⊕. I rather like the above tho.

↳ ȳ — ȳ. It shows the scope.

∴ ∴ ⊕ ȳ — Δ^{xx} — V ȳ + — ȳ. ȳ ⊕, on Δ^x.

→ 3 ȳ ⊕ Δ = ȳ ⊕ ⊕. ④ ⊕ ⊕ — ȳ + ȳ ⊕ ⊕.

Many of my ids are the products of great effort and long struggle. "Struggle" itself is an example.

To me they are real achievements. I know how long they took and how difficult they were.

∴ Δ — ȳ ⊕. ④ ȳ Nikola Tesla. ȳ ⊕ + ȳ ⊕.

Of course the greatest scientist of all was Nikola Tesla — greatest scientist and greatest human being.
