A [illegible] A Wonderful Hobby

[illegible]

I am devoted to this + spend a lot of time doing it because I really enjoy what I am doing! With each new id I am building mind — adding to my treasure of clearer mental images.

[illegible] crater [illegible] atmosphere [illegible] hood [illegible] erupt [illegible] mountainside

[illegible] too late [illegible] carnal desire ([illegible] body [illegible] flesh → want *star (.sid) — desire

[illegible]. I have a lot of fun. It is a great hobby for me.

[great: [illegible] big [illegible] (very good) [illegible] huge (size) [illegible] deserving high honor ([illegible] pedestal)]

[illegible]. I have built my own world of meaning.

[illegible]. A nice thing is that I often don't even bother with writing new id images down. Such is the sticking + staying power of images in the mind + subconscious that I know I will remember them.

NOTES: [illegible] devote [illegible] do [illegible] this [illegible] only [illegible] spend [illegible] container [illegible] out

spend is from Latin ex.pend — to weigh out. my id depicts the use of a resource ([illegible])

'1' time ⊥ time indicator 11 period lines — a period of time ⊥ a specific time

[illegible] enjoy [illegible] happy [illegible] in [illegible] build [illegible] hand — agency indicator [illegible] bldg.

[illegible] treasure [illegible] diamond [illegible] chest [illegible] image [illegible] picture

[illegible] ([illegible]) [illegible] mind [illegible] mean (intend) [illegible] mean (signify, represent)

[illegible] power ([illegible] can [illegible] strong) [illegible] subconscious [illegible] conscious (nest) [illegible] unconscious

[illegible] will remember. I use [illegible] + [illegible] forget on analogy with [illegible] lose + [illegible] acquire ([illegible] person) "remember" is complex + ambiguous! I opt for simplification in this case, [illegible] bother [illegible] a fly I chose a fly for my central metaphor for bothersomeness, as I choose a cliff [illegible] for danger [illegible] (and anti-cliff for safety: [illegible] safe [illegible] sieve [illegible] a safe)
